

## Standard Operating Procedure

Subject:	Waste Management – Customer
First Issue date:	March 2013
Revision Date:	29 May 2023
Department:	Operations
Facility:	Al Mouj Marina

### Purpose

The purpose of this procedure is to provide a clear protocol and method for our customers for dealing with all types of waste in Al Mouj Marina

### Responsibility

The best practices of waste management are a collective responsibility between customers and the Marina.

### Used Oil

#### **We encourage service providers to dispose of used oils as per their SOPs however;**

- In the case you have a container of used oil, do not leave it on the docks or unattended, call the marina staff and they will collect immediately
- The used oil is then taken to the bunded storage at the trailer area
- Containers are then emptied in the large container marked with “Used Oil” and the marina office calls used oil contractor for collection

### Used Batteries

- If you require the disposal of a used batteries, do not leave them on the docks or unattended anywhere across the marina, inform the Marina staff and they’ll be collected immediately
- Batteries are then taken to the bunded storage at the trailer area and stored within the container marked “Used Batteries”
- The marina office will one of the used batteries contractors for collection

### Zinc Anodes

- In the case you require the disposal of zinc anodes, inform the Marina staff and they’ll be collected immediately
- Zinc anodes are then taken to the bunded storage at the trailer area and stored in a container marked “Zinc Anodes” the marina office will then call one of the contractors for collection

### Oily Rags / Used Spill Equipment

- In case absorbents / booms have been used to clean up a minor spill or your bilge area, do not dispose of them in the regular garbage containers nor leave them onboard the vessel. Inform the Marina staff and they'll be collected and taken to the bunded storage at the trailer area
- They'll be stored in the container marked "Oily Rags" and the marina office will call Oman PESCO for collection

### Sewage

- Please call the Marina office for Sewage Pump-out. Pumping black/grey water in the Marin is strictly prohibited

### Regular Waste:

- Routine garbage collection are scheduled by the Marina on daily basis or whenever required
- Do not place hazmat waste in regular garbage containers
- Containers are marked general waste and plastic (no oils), kindly sort the waste accordingly
- In the event that you notice the garbage containers are full, please do not place garbage on the docks, call the Marina for immediate collection.
- Licensed Facility Management Operator will then collect garbage using their garbage truck and dispose of it in the Municipality collection facility
